

# Pavo Ease&Excel

Innovative blend to support gastric function

## About Pavo Ease&Excel

Pavo Ease&Excel is an innovative, well-structured performance feed, especially developed for a good acid-base balance in the stomach and therefore ultimately suitable for sport horses which need to perform. It's a complete concentrate feed with a high energy content from easily digestible fibres and vegetable oil and with a very low sugar and starch content.

## The Protexin In Feed-Formula

Pavo Ease&Excel contains the patented 'Protexin In-Feed Formula', which supports the functioning of the small intestine, caecum and large intestine. Protexin is a unique mix of natural acid inhibitors, beta-glucans, Gum Arabic, prebiotics and probiotics. The natural acid inhibitors, including calcium and magnesium, neutralise the stomach acid, while Gum Arabic supports the general health of the digestive tract wall. Protexin also contains prebiotics and probiotics. These substances promote optimum development of the bacteria in the caecum and large intestine and therefore ensure healthy intestinal flora.

## Feedmanagement

It's important for you to adjust your management and also offer plenty of roughage alongside Pavo Ease&Excel, in order to achieve optimal results. Opt for the minimum roughage intake of 1.5% of the body weight in dry matter, divided across as many meals as possible per day.

**Tip:** Mix Pavo Ease&Excel with Pavo DailyPlus to reduce the absorption rate and increase the chewing intensity!

*The product Pavo Ease&Excel is not available in the United Kingdom.*

### Important characteristics

- Well-structured sport muesli to stimulate chewing
- High in energy from highly digestible fibers and oils
- Very low sugar (6%) and starch (8%)
- High-quality proteins for a faster recovery of the muscles after training
- Contains the patented 'Protexin In Feed – Formula' which supports the functioning of the small intestine, caecum and large intestine.

## Product Specifications

### Contains

Soya hulls  
Oat hulls  
Lucerne (alfalfa)  
Soybean oil  
  
Beet pulp  
Wheat  
Soya (bean), extracted, toasted  
Cane Molasses  
Linseed  
Wheat feed  
  
Calcium carbonate  
Sodium chloride

### Package

Bags 15 kg

### Nutrients

Energy (EWpa) 0,95 EWpa  
Energy (DE) 13 MJ  
Energy (ME) 11,1 MJ/kg  
11,05 %  
Crude protein 13,0 %  
Crude fat 10,5 %  
Crude fibre 18,0 %  
Crude ash 8,0 %  
Sugar 6,0 %  
Starch 8 %  
Calcium 1,2 %  
Phosphorus 0,6 %  
Sodium 0,3 %  
Magnesium 0,4 %

### Storage advise

Store in a cool, dry and dark place.  
Reclose after usage

### Vitamin levels (per kg)

Vitamin A 13.000 IE  
Vitamin D3 1.300 IE  
Vitamin E 375 mg

### Shelf life

Shelf life 5 mth

### Minerals and trace elements (per kg)

Copper	65 mg
Iron	65 mg
Zinc	150 mg
Manganese	55 mg
Cobalt	1,0 mg
Selenium	0,3 mg
Iodine	1,2 mg

Chelated minerals  
Organic form of Selenium
