NEW NAME

Pavo DailyFit is the renewed Pavo SummerFit

About Pavo DailyFit

Does your horse need no or a very low amount of feed? Or is your horse on the field the entire day? It then is important to replenish its daily vitamins and trace elements. Your horse will not receive its daily vitamins and trace elements by just eating roughage (grass and hay).

Vitamine biscuit for horses and ponies

Pavo DailyFit is a tasteful vitamin biscuit that consists the daily needed vitamins and trace elements. It is suitable for all types of horses and ponies. It is suitable for all horses and ponies, as it only contains the nutrients that your horse needs, without any extra added energy and calories, as in concentrated feed. Pavo DailyFit is grain-free and contains a low sugar and starch content. Furthermore, the biscuits are enriched with prebiotics to support the intestinal flora and with different immune system supporting flowers and herbs: mayflower, dandelion, marigold and nettle.

Flowers and herbs in Pavo DailyFit

In nature horses eat all kinds of herbs, flowers, grass, trees and bushes. By this, they do not only receive their needed vitamins, minerals and trace elements, but also substances that are good for their health. A lot of these blends do not grow in our fields anymore. Thus, we have added flowers and herbs to Pavo DailyFit, to support your horses' health as good as possible!

Flowers & herbs	Function
Mayflower	The mayflower supports the blood vessels and the gastric intestinal tract, as well as it has a calming and immune boosting effect.
Dandelion	The dandelion has a blood-cleansing effect and supports your horses' liver and skin.
Marigold	Marigold supports the digestion and has a softening skin effect. Therefore it's often used for wounds and scurf.
Nettle	The nettle stimulates the skin and the kidney. The antibacterial and blood-cleansing effect supports allergic reactions and reduces inflammations.

Important characteristics

- Balancer biscuit
- 1 biscuit = daily dose of vitamins and trace elements
- With immune system supporting flowers and herbs
- For all horses in all seasons
