

# Pavo LinseedOil

Linseed oil for a healthy and glossy coat

A dull coat or difficult shedding can be a sign of an omega 3 deficiency. Omega 3 is an important nutrient for improving the coat. As a horse cannot make omega 3 fatty acids itself, this must be provided through feed. Pavo LinseedOil is rich in omega 3 and 6 fatty acids and makes your horse shine like never before! Linseed oil is suitable for all horses and ponies that can use some extra support with their coat. After 2 weeks, the improvement is already clearly visible.

An additional advantage of omega 3 is that it has an anti-inflammatory effect. This immediately provides extra support for the immune system and can help your horse during the winter months or in weaker periods.

Linseed oil is the perfect oil to supplement your daily ration with. As well as making your horse's coat shine, it also improves the absorption of various vitamins, such as vitamin A, D, E and K.

## Important characteristics

- Linseed oil
- Healthy & Shiny Coat
- Rich in omega 3 and 6
- 100% natural (cold pressed)
- Fast results
- Handy bottle with dosage function

## Application

Very suitable for all horses and ponies that:

- Have a dull coat
