

Pavo AllSports

The sport feed for every discipline

Success depends on disposition, character, training, management and a conscious decision to choose a healthy feed. Pavo AllSports does not only supports your horse through training but also aids in keeping your horse in a healthy condition. Various energy sources from cereals and oil-containing seeds such as linseed provide the correct balance between fast and slow-release energy. The puffed cereal grains ensure maximal digestibility and added oil increases the energy content without increasing the excitability of your horse. Good levels of magnesium, selenium and vitamin E help support muscle function and tone. For a supple horse with increased stamina.

Available in 20kg bags and Big Box.

Pavo AllSports is also available in Big Box: the ideal bulk package when you feed 5 to 10 horses the same type of concentrated feed. The Pavo Big Box is more advantageous than bagged feed.

Important characteristics

- Allround pelleted feed
- Extra magnesium for the care of muscles and joints
- Added linseed for extra shine
- Maximum puffed cereal content to optimise digestion

Application

Suitable for all sport horses in all disciplines.

Feeding advice

- Average advice in medium-heavy work: 450 gram per 100kg bodyweight per day.
- Maximum advice in heavy work: 600 gram per 100kg bodyweight per day.
- The required amount depends on grazing and work

Feed scoop content

- 1 full Pavo feed scoop Pavo AllSports contains approximately 1.3kg.

Pavo AllSports

The sport feed for every discipline

Product Specifications

Contains

Wheat
Wheat feed
Barley
Maize / Corn
Cane Molasses
Soya hulls
Lucerne (alfalfa)
