

Pavo Gold E

Bringing balance to a cereal diet.

Attention: Pavo Gold E is no longer produced! Read more below...

Pavo Gold E is no longer produced!

As of December 1, 2020, Pavo Gold E will no longer be produced and is therefore no longer available.

At Pavo we always try to keep our product range up to date, which means that we improve current products and launch new products.

But also that products are taken out of the range.

- Alternative: Are you looking for an alternative to Pavo Gold E? Then choose our new sports pellet Pavo Performance. Pavo Performance is a high quality sports feed with a high energy value, so that your horse can continue to perform athletically without becoming violent. Pavo Performance can be fed as a complete concentrate, but can also be fed as a supplement to oats.

- Feeding recommendation: In an oat ration it is important to feed the ratio of oats to Pavo Performance 1:3. Example: for a 600 kg horse (at medium work): 0.5 kg oats, 1.5 kg Pavo Performance.

This top-quality pelleted feed has been specially designed to balance out a cereal diet. Gold E ensures that all the nutritional requirements are met when fed along side cereals and forage. Feed Pavo Gold E and cereals in a ratio of 1:2 to provide your performance horse with top quality nutrition. Also ideal as a conditioning feed.

Important characteristics

- Perfect addition to cereals
- High vitamin and mineral content
- High energy value
- Highly concentrated, low feeding rate

Application

For horses who have oats in their daily ration.

Feeding advice

- Average advice in medium-heavy work: 175 gram per 100kg bodyweight per day, combined with 350 gram oats per 100 kg bodyweight per day.
- Maximum advice in heavy work: 250 gram per 100 kg bodyweight per day, combined with 400 gram oats per 100kg bodyweight per day.
- The ratio between Pavo Gold E and oats should be around 1:2
- The required amount depends on grazing and work

Feed scoop content

- One full Pavo feed scoop Pavo Gold E contains approximately 1.2 kg

Pavo Gold E

Bringing balance to a cereal diet.

Product Specifications

Contains

Barley
Wheat feed
Soya hulls
Wheat
